

# Jamie O'Neal, Girlfriends

I've been starin' all day at the same computer screen  
'Round here I'm treated like I'm just some damn machine  
I punch in, I tune out, nobody cares what I'm all about  
But at five that ends, they're waitin' for me, my girlfriends

Yeah, yeah, yeah, we're gonna get loud no doubt we're gonna get crazy  
Yeah, yeah, yeah, who cares if we do some damage to our reputation  
Guys can come and go life can turn around and let you down so fast  
But if you need that one sure thing that's gonna last  
Girlfriends kick ass

If doesn't even matter if I show up in a bad mood  
They're gonna make me laugh and change my attitude  
Here's to one more, and me and my girls out on the floor  
We'll dance all night long so, come on mister DJ play our song

Yeah, yeah, yeah, we're gonna get loud no doubt we're gonna get crazy  
Yeah, yeah, yeah, who cares if we do some damage to our reputation  
Guys can come and go life can turn around and let you down so fast  
But if you need that one sure thing that's gonna last  
Girlfriends kick ass

When we're together I can't help feelin' fine  
Oh yeah, everything's alright  
Tomorrow's comin' it'll be here soon enough  
But nothin's buggin' us tonight
