

# Jamiroquai, Black Devil Car

I've got a lot of juice  
I need to put to use  
Let's burn this highway down  
I'm going from Z to G  
When it should be A to B  
Nose so low, it just scrapes the ground  
Can't you see I'm overtaking  
All the while I'm salivating  
Won't you let me  
Push a little thrust up you

She loves

[Chorus:]  
Riding around  
In my black devil car  
I can't hear a sound  
Because her foot's pushing down too hard  
And white angels cry  
For her black devil heart  
She wants me to stop  
She should never let me start  
She should never let me start

Talking to all those pretty girls  
That I meet around the world  
Her name was Gina  
You should have seen her  
She had the greenest eyes  
And with those endless thighs  
I've put my hands through  
Some misdemeanors  
Can't you see me  
I'm not choosy  
You drive a black machine  
And I think you're groovy  
Won't ya let me  
Take a little ride with you

She loves

[Chorus]

She's just a love machine  
She's just a love machine  
She's just a love machine  
She's just a love machine  
Ooooooh, riding around  
In my black devil car  
You know I can't hear a sound  
In my black devil car, yeah

Babe, you know

You got such a tight machine  
Now let me drive your dream  
Until your tank is dry  
I'm shooting from the hip  
Not running out of clips  
Flames of love and licking high  
You know she'll always be  
A hot freewheeling honey bee  
Won't ya let me  
Push a little thrust up you

That's what I wanna do

[Chorus]

Strapped down, wrapped around  
Breaking up the speed limits  
Red lights, crazy nights  
Hope she's coming back with it  
Super charged devil queen  
Stepping in my love machine  
Twisted my metal  
On the highway of desire  
She's easy rindin' super flyin'  
95 it's still green  
High heels, shiny wheels  
Looking for a tight squeeze  
Rocket fuel and jet juice  
Now she's getting real loose  
Can't stop, black heart  
She should never let me start

She's just a love machine  
She's just a love machine

[Repeat to fade]
