

Jamiroquai, Cloud 9

You pick me up
Then you put me down
Can't seem to find way around you
See what you think
Well, you don't think it now
You lost my love
But someone sound it

Now, when the rain falls upon my head
I don't think of you, ... at all
Just one think
Seemed to make you care
Who's gonna drive and take you home

Only a fool could walk
Anyway from me this time
I look up heaven
Every star I see is mine
Only a fool could walk
Anyway from me this time
I'm walking on air
And every cloud is Cloud 9

We go out at night
And the World starts feeling right
And she doesn't care about Hollywood
I know you don't believe it
But this time I really mean it
I hope its clearly understand

Only a fool could walk
Anyway from me this time
I look up heaven
Every star I see is mine
Only a fool could walk
Anyway from me this time
I'm walking on air
And every cloud is Cloud 9

I'm not the one
The one for you
Can't change it, baby
I'm not the one
The one for you
I know it, baby
I'm not the one
The one for you
Can't change it, baby
