Feels good Im stranded on a spaceship hideaway And something makes me think Im here to stay Im so happy where I am Feels good Ive journeyed to the other atmospheres And every breath I take just makes it clear Im holding heaven in my hands Its automatic baby and it feels good And it feels so good Feels good And it feels so good Feels good These extra-sensory sensations Are causing me some complications Electrostatic information Feels good Im playing with a pleasure trafficker Arriving soon, intergalactica Im holding heaven in my hands Its automatic baby and it feels good Feels good And it feels so good Feels good Im stranded on a spaceship hideaway
