

# Jamiroquai, Loveblind

Love blind and you're on my mind  
Even when I'm walking the dog  
I'm carefree like this melody  
Hope this doesn't take us too long  
Baby, turn me on  
You put fire in me every night  
I need the drug you got to give  
Keep it like that 'cos it's positive  
Can't leave you to feel alone  
Step in the car let me take you home  
Slide right up and make you bend  
Now we did it once, can we do it again?

[Chorus:]

Baby, you got me hanging off the streetlights  
You got me singing with the bluebirds  
In the sky above  
I think I'm in love  
Step to me, angel eyes  
You got the shake and I gote the fries  
All black leather like a disco bitch  
Five feet nine with your ruby lips  
You made me love blind  
And I can't get you off my mind  
Mama said stay away from girls like you  
Turn out the lights, I know what to do  
Baby, rock the floor  
You gonna rock the floor tonight  
Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor  
You gonna rock the floor tonight  
Baby, rock the floor  
Baby, rock the floor  
Rock the floor tonight

[Chorus]

And you got me dancing on the ceiling  
You got me thinking about the whole world  
It revolves around you  
So what can I do?  
What to do?  
Baby, rock the floor  
Baby, rock the floor  
Baby, rock the floor  
Kiss me twice and I need some more  
Yeah, you're gonna rock the floor tonight  
You've got me hanging from the streetlights  
You've got me climbing up the wall  
Everything you do reminds me of the good times  
Woah, baby, you know you made me so love blind  
You're gonna rock the floor tonight  
You're gonna rock the floor tonight  
You're gonna rock the floor tonight  
You're gonna rock the floor tonight
