

Jane, Come What May

Come what may
Stars are gonna shine
Come what may
The big old sun will rise

Come what may
Night is gonna follow the day
Come what may
Rain's gonna fall some day
Pour down on us all
In the same way
It's all inevitable

CHORUS

Nowhere brings me close enough to you
There's no place on earth I can find the truth
You tell me lies
Sweet words that mean goodbye
Nowhere brings me close enough
To you

Come what may
World's gonna turn anyway
Doesn't matter much what I say now
May as well enjoy the rain somehow

Come what may
Skies will be dark someday
No pressing rainbow mark found any place
Lucky I got bought some grace

CHORUS
