

Jane, Fire In My Eyes

Holding back the tears of time
Holding back these fears of mine
Trying to hide
The fire in my eyes

When I need you in the night
And there's
Not a hope in sight
I wonder if you feel
The fire in my eyes

CHORUS

True I don't give any signs
You have to read between the lines
The only thing I can't disguise
Is the fire in my eyes

How I wish that you were here
Because I long to hold you near
Burns like a flame'
Fire in my eyes

But it's not a dream we share
Because you seem so unaware
You never can feel
The fire in my eyes

Chorus

Was it just another trick of the light
Or did I really catch the sight
Of you for a minute with
Fire in your eyes
