## Jane's Addiction, Everybody's Friend

Hey man where did you go? Thought I, but I guess I don't know you Gave you my heart You looked to take it apart Hey man what did you do? Walked away we weren't through Last time was a fake shaken head Now I think it must be said

Hey man Can't be everybody's friend Hey man Can't be everybody's friend

Man of peace Man of war Tell me who knows more? People gathering by the well I think we could meet up again

Hey man Can't be everybody's friend Hey man Can't be everybody's friend

Hey man Can't be everybody's friend Ain't no way man To be everybody's friend
