

Jane's Addiction, Price I Pay

I always do the wrong thinking, but
for very good reason
always do it wrong, but
it feels right
so forgive me now
and forgive me later
I'll pay you back

I always do the wrong thing, but
I got a good reason
I always do the wrong thing, but
it feels right
I always do the wrong thing, but
I got a god reason (fades out)

I could've had it but I walked away
no I won't miss out, not even one day
what I lost of the line
I bring back all in my good time

there ain't no other way
because this is
the price
it's the price
always the price I pay

I see you're going places
so lets get the hell out of here
I'm a big Little man of the table
I got my long on
able to lay you out

there ain't no other way
because this is
it's the price
it's the price
always the price I pay

always having a good time
always searching for more
I'm buying now
and paying later
I'm buying now

I'm a little man in a bath hot of water
hot water always my case
we're finding nothing to say
just put the cloth right over my face

there ain't no other way
because this is
always the price
it's the price
oh
the price that I pay
oh
the price that I
price that I pay
I got to get it out
oh
always the price that I pay
