

# Janet, Twenty Foreplay

Sleep my love  
Don't you worry  
You just sleep my love  
And I'll stroke your hair  
Oh the sunlight on your face  
As the day begins to break  
When you wake  
And your smile meets mine ah  
My day begins  
You're my inspiration  
Seeing your face glow  
Is the nicest of hellos  
Five till noon  
You sneak up from behind  
Kiss and caress me  
Make love to my mind  
A whisper and kiss from you  
Warms my heart  
Means so much  
Making love our way  
Begins early in the day  
You walk in the room  
In a sunset sort of room  
My emotions light up  
'Cause of you  
Now that evening's come  
We're dressed for us my love  
Wine and candles puts us in a sexy mood  
That's when we get to it  
Close our eyes  
Feel our way though it  
I can't wait to groove ya  
'Cause you sure know how to move it  
You've made love to my mind  
Now you gotta take me from behind  
Just like in the movies  
When the action begins  
Let's put on a show (Can't you feel it)  
And we'll take it nice and slow (Can't you feel it)  
Oh here we go (Can't you feel it)  
Tell me do you want the blindfold (Can't you feel it)  
Tell me what you like (Can't you feel it)  
Baby should I do it once or twice (Can't you feel it)  
I know that we've getting' naughty (Can't you feel it)  
But I know you like it like that  
Now that we felt this warm explosion  
I know you're satisfied (I know you're satisfied)  
I see it in your eyes (I see it in your eyes)  
Relax be still my love (Still my love)  
Let your heart slow down (Heart slow down)  
'Cause I'm not through my dear  
Don't stop
