

Janis Ian, When The Party's Over

Would you like to learn to sing?
Would you like to sing my song?
Would you like to learn to love me best of all?

Anyone can learn the words
And the melody's so plain
This is my song to bring you back again.

I can teach you how to sing and dance
With a song and dance routine
And when my party's over
You can fall in love with me.

Would like to learn to Tango?
Do you dance the light Fandango?
Teach you how before we're done.

Anyone can make it two
Any two can turn to one
And the melody's lost
before the song's begun

Well, we sound so good together
And so poorly sung alone
Your harmony's an open breeze
Into my sheltered home.

I can teach you how to sing and dance
With a song and dance routine
And when my party's over
You can fall in love....with me.
