

Janna Long, Overjoyed

I believe I found the secret everybody's lookin' for
I found the something that was missing, found myself and more
A love that's really real, the only love that's truly true
There's not a moment I don't wanna be with You

Every night I find my way
By the light of Your love
Like nothing else I can't help myself

CHORUS:

Whenever we're together I'm overjoyed
Over all You do
When my heart is Yours forever
For always I'll be overjoyed over You

Trouble's gonna come and trouble's gonna go, I know it's true
What does it matter, Lord, as long as I can run to You
But for Your grace where would I be in this crazy life
You give me joy that I could never hide

You make me strong
Oh, and You make me whole
Lord, I know why I'm here
Now it's coming clear

CHORUS

I find my way
Of Your Love
