

# Jason Aldean, Love Was Easy

It seems like money  
Is always on our minds these days  
Make more, spend more  
Worry how the bills will get paid  
Oh, it wasn't that long ago  
But it seems so far away  
When we didn't have a damn thing  
But we were happy  
And love was easy  
Just layin' on a river bank  
All night countin' the stars  
Love was easy  
As that feelin' we found  
In the back seat of my car  
Even in the dark  
Love was easy  
When we didn't make it so hard  
Can you tell me  
The last time we really laughed?  
The last time we had a moment  
When we hated that the moment passed  
Here we are down the road  
Standin' here lookin' back  
Seein' what we used to have  
Is what we're missin'  
When love was easy  
Just layin' on a river bank  
All night countin' the stars  
Love was easy  
As that feelin' we found  
In the back seat of my car  
Even in the dark  
Love was easy  
When we didn't make it so hard  
Yeah  
Maybe that's how it is  
Ah, maybe that's how it goes  
But all I know  
Is love was easy  
Just layin' on a river bank  
All night countin' the stars  
Love was easy  
As that feelin' we found  
In the back seat of my car  
Even in the dark  
Love was easy  
When we didn't make it so hard  
When we didn't make it so hard  
Love was easy, baby, yeah  
When we didn't make it so hard
