

# Jason Dean Bennison, Always Be In The Game

Yeah!

Come on, come on!

Here we go!

You gotta fight me, because the game is always coming to you

Deception! Power! Hoping you fall through!

Never underestimate the power of one!

With truth on your side, you won't have to run!

Standing here with my pack because I carry the weight

I smile so my teammates will think that I understand

Zeroing in on my dream

I bet your notions are blue

Back to reality,

Back to conquerin' you!

And in the end it's all the same

No winners, losers, only those,

Who finished the game.

Gotta keep it up, keep it up

Come on!

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair

Know you give the answer that they gave me the most,

Subscription to a never ending story it goes

I'll show them everything that I could possibly find

Walk like a lie, ingenious in my mind

Go before the people here discover the truth

That ending is the only type of power in you

I'm never going back to be your model of greed

You ain't competition

You ain't in the same league

Every generation's gotta battle the fight,

Straight from within, always see the light

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair

And in the end it's all the same

It's all, it's all the same

No winners, losers, only those,

Who finished the game

Someone must have told ya when your music's playin' turn it down!

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair

Always be in the game and keep rolling

Step up, get in the ring if you dare

Always be in the game and keep going

Nobody said that life would be fair
