

# Jason Michael Carroll, Angel Of Broken Hearts

How do I move on from here when everything I lost is what I want  
This ocean left inside of me has become her memory's favorite place to haunt  
How can the best I ever had hurt so bad hurt so long  
You know I'm not that strong

{Chorus}

Angel of broken hearts where on earth are you tonight  
Help me find a place to start to get me over her  
Maybe I mistreated love have I not suffered long enough  
Angel of broken hearts take this pain away  
Take this pain away

Some days I think that I've come through the worst of it and I'm on the healing side  
And then she kicks up like a dustbowl wind and covers up my mind  
I lose hours I lose days in the haze that used to be and then I'm on my knees

{Chorus}

I've paid with prayers I've paid with tears  
But I'll probably pay for years  
I could use a little mercy here

{Chorus}

Angel come and take this pain
