

Jason Mraz, God Rests In Reason

You were born together
And together ye shall be forever
Until death could scatter
Shouldn't matter in the memory of God above
Let the wind of heaven dance between you too
Allowing time and space to bring you closer to everlasting love
So what should you do if God moves through you

When love beckons
Its ways are often hard and steep
And his wings unfold
Ye yield to all that it speaks
Though a sword it might be hidden there among the pinions
Oh you may wear a wound that truly spoke to you
Believe in all that voice and follow through
So what should you do when God moves through you

Love possesses nothing
Nor would it ever be possessed
Love is love sufficient unto love
And you can figure out the rest

God rests in reason
So what should you do, oh oh
When God moves through you

Well your children will not be your children
Maybe the daughter, the son of a beginning
They'll come through your womb but not be coming from you
They will be with you, but they do not belong to you
You can give them your love but not your thoughts
'Cause they'll arrive with their own hearts
They're the coming of angels this blessed season
And then they'll sing oh yea god rests in reason
God rests in reason
So what should you do
When God moves through you

And think not you can direct the course of
Love itself directs the course of love
Believe not God is in your heart, child
But rather you're in the heart of God

So you see so far I'm alright
Pleasant and awkwardly polite
Watching carefully the comedy
The tick tock moments of the grid lock day
And why I'm singing
About the fact that I'm giving up everything
And giving back to the people that made me want to change
My evil, lazy ways
I'm gonna give you one more phrase to explain

See I believe in only one thing
I believe in good orderly D-I-R-E-C-T-I-O-N
I'll spell it again, roll it with abbreviation
Easy as a 1,2,3
Spell it backwards it's a D-O-G
'Cause it's a dog eat dog world
What a life girl, maybe you should make you my wife girl
And I believe in omni-possibility
It's nothing more than good orderly direction
Nothing more than good orderly direction
Nothing more than good orderly direction

This is nothing more than good orderly direction
So what should you do when God moves through you
What should you do when God moves
Through you
