

Jason Upton, Cloud By Day

I know you walk on the water
I know you ride on the wind
I know you clothe yourself with light
So why do I find it so hard to comprehend
Directions to the other side

A cloud by day a fire by night
Ill keep moving on
It may seem strange but I know its right
Ill keep moving on

Ive got my friends here to help me
Ive got my wife here to hold me
Ive got my children by my side
Although they do make me happy
I know theyre to make me holy
Each day they raise the cup of Christ

A cloud by day a fire by night
Ill keep moving on
It may seem strange but I know its right
Ill keep moving on
