

Jason Upton, Hannah (A Child Is Born)

For a child is born to us
Light of God upon her face
Filled with favor and with love
Shes a miracle of grace
Shes a miracle of grace
I see a mother with her child
I see a daddy standing tall
I see the joy that you have brought to us all
I know gramps will teach you Bible
Well all teach you ice cream
Probably youll be teaching us all that weve lost.

I know theres a reason theres rhyme
For every season theres a sign
I know theres a message God has just for us
Cause somehow as we grow
We lose what we were told
Simple seems the cost for getting old
