

Jax Jones, Tove Lo, Jacques

ask me for my cigarette
just so e can taste my lips
and start to want m
calculate his every step
feel his hands around my hips
here comes the head tip
kiss him in the French way
professionally passionate head to a private place
so I can reciprocate
let me be and astronaut
locked in your head space

je m'appelle Jacques
I am gonna love you a lot
I need you tonight, but tomorrow I am not
je m'appelle Tove
get the sow on the road
Get down for one night
let's go

no talking now pull on my waist
'cause I want you to do it ob my face to face to me, to me
no wasting time got plenty to change
I am over it just want your weight on me, on me
I just want you on me /2x

I kinda like the feel
on a mission to position myself right underneath you
boy that was good for me
don't really do this but hey, you wanna go again?

je m'appelle Jacques
I am gonna love you a lot
I need you tonight, but tomorrow I am not
je m'appelle Tove
get the sow on the road
Get down for one night
let's go

no talking now pull on my waist
'cause I want you to do it on my face to face to me, to me
no wasting time got plenty to change
I am over it just want your weight on me, on me
I just want you on me /2x

no talking now pull on my waist
'cause I want you to do it on my face to me, to me
no wasting time got plenty to change
I am over it just want your weight on me, on me
