

# Jay Delano, Where did it go

Where did it go, where did go  
Where did it go, where di all love go  
Where did it go, where did go  
Where did it go, where di all love go  
What's wrong the whole worlds's gone out of it's own mind  
Dads killing babies and their own wives plus on top they even  
end their own lives I see so much pain and hurt around me  
I don't even wanna watch the tv nor the papers there's gotta be  
some changes all of this needs to stop  
I wanna know what's goin' on  
Why can't we leave everyone in their values  
It's seems like all the love has gone  
Tell me where did it go  
My God terrorism keeps growing it won't stop racial issues in front of my own house  
Innocent people getting' killed every single day  
Fammily no longer close, parents and their kids don't get along no more  
And you know what I hate the most, everyone's thinkin' about their own and I...  
RAP  
When I turn the tv nothin' but violence, let's raise our voices no longer silence  
Say it loud man, lift your hands up, I can't pretend anymore, I gotta stand up  
Suicidal people, drugaddicts, street ho's nobody seems to care about each aother anymore  
It's all about gettin' richer and if you don't fit any longer to'em then you're outta the picture...
