

# JC Chasez, Some Girls (Dance With Women)

The door is coming off the hinges  
About to pass out, no doubt it's hot in here  
Because the club is full of women  
It's wall to wall and I got my crew with me  
We grab a table spot to chill in  
Hunt down a waitress, make an order  
Here we go  
Throw back a drink and let it kick in  
It takes a minute  
Who's ready to have some fun?  
Get up and take a lap and mingle  
Love being single on a night like this, yea  
So many beautiful young people  
That game is lethal, you don't have to kill them though  
Just look at everyone as equal  
While you were dancing she was watching, feeling you  
Her and her girlfriends by the speaker  
All moving on each other, this is when the show begins  
Baby girl you keep looking at me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it  
Baby girl cause you know you got me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it  
Some girls dance with women  
Knowing that it gives them attention  
And I wanna get in with them  
So pass me a drink and lets roll  
(Come here girl)  
Some girls dance with women  
Knowing that it gives them attention  
I wanna get in with them  
So pass me a drink and lets go  
(Lets go)  
Might have to peel me off the ceiling  
I'm like a soda that's been shaken up... boom  
I find the playfulness appealing  
That cat and mouse chase  
On your mark, get ready, go  
Send you a drink, see what the deal is  
Held up your glass and blew a kiss, and took a sip  
When you were finished, back to business  
You and your girlfriends group up  
This is how you draw them in  
Baby girl you keep looking at me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it  
(Yeah)  
Baby girl cause you know you got me  
Move your body so sexy  
Nice and slow, watch you roll  
(Yeah)  
You know how I like it  
(Come on)

Make your hips go da-da-da-da-da-da-da  
Uh, uh, uh, uh, uh, uh  
Step right up and spin the wheel  
All charged up on what you feel  
Make an approach tryin' to keep it real  
What's you name, girl?  
Try your luck and spin the wheel  
All charged up on what you feel  
Make an approach tryin' to keep it real
