

# JC Chasez, Some Girls (Dance With Women) ft. I

The door is coming off the hinges  
About to pass out  
No doubt it's hot in here  
Because the club is full of women  
It's wall to wall and I got my crew with me

We grab a table spot to chill in  
Hunt down a waitress, make an order  
Here we go  
Throw back a drink and let it kick in  
It takes a minute, whose ready to have some fun

Get up and take a lap to mingle  
Love being single on a night like this, yeah  
So many beautiful young people  
The game is legal  
You dont have to kill 'em though  
Just look at everyone as equal

While you were dancing she was watching  
Feelin' you  
Her and her girlfriends by the speaker  
Are moving on each other  
This is when the show begins

Baby girl you keep looking at me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it

Baby girl 'cause you know you got me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it

## CHORUS:

Some girls dance with women  
Knowing that it gets them attention  
I want to get in with them  
So pass me a drink and let's roll

Some girls dance with women  
Knowing that it gets them attention  
I want to get in with them  
So pass me a drink and let's go

Might have to peel me off the ceiling  
I'm like a soda that's been shaken up, boom  
I find your playfulness appealing  
The cat and mouse race  
On your mark, get ready, go

Send you a drink, see what the deal is  
Held up your glass and blew a kiss  
Then took a sip  
When you were finished, back to business  
You and your girlfriends move up  
This is how you draw them in

Baby girl you keep looking at me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it

Baby girl 'cause you know you got me  
Move your body so sexy  
Nice and slow, watch you roll  
You know how I like it

CHORUS

(Instrumental Break)

Step right up and spin the wheel  
All charged up on what you feel  
Make an approach tryin' to keep it real  
What's your name, girl

Try your luck and spin the wheel  
All charged up on what you feel  
Making a pose trying to keep it real  
I want to take you home
