

# Jean Shepard, Funny Face

When the roads I travel seem all up hill and the colors in my rainbows turn blue  
You kiss my tears away you smile at me and say funny face funny face I love you  
Funny face I love you funny face I need you  
These are the sweetest words I've ever heard  
Funny face don't leave me funny face believe me  
My whole world's wrapped up in you

And when I hurt your feelings like I sometimes do  
And I say those mean things we know are not true  
You forgive my childish ways you hold me close and say funny face I love you  
Funny face I love you...  
My whole world's wrapped up in you
