

# Jean Shepard, I Don't See How I Can Make It

I don't see how I can make it with you gone  
I woke up today and found that you had left me  
But I wasn't so surprised to see you gone  
I could see for quite a while that it was coming  
But I don't see how I can make it with you gone  
I can't read the find-a-friend that's inner contract  
Read a needle twenty faces from its sight  
See the leaning Tower of Pizza in perfection  
But I don't see how I can make it with you gone  
[ steel ]  
I remember when you said I love you truly  
Said our vows of love till death would separate  
I can see the days ahead are blue tomorrows  
But I don't see how I can make it with you gone  
I can't read the find-a-friend...  
No I don't see how I can make it with you gone
