

Jean Shepard, I Don't See How I Can Make It

I don't see how I can make it with you gone
I woke up today and found that you had left me
But I wasn't so surprised to see you gone
I could see for quite a while that it was coming
But I don't see how I can make it with you gone
I can't read the find-a-friend that's inner contract
Read a needle twenty faces from its sight
See the leaning Tower of Pizza in perfection
But I don't see how I can make it with you gone
[steel]
I remember when you said I love you truly
Said our vows of love till death would separate
I can see the days ahead are blue tomorrows
But I don't see how I can make it with you gone
I can't read the find-a-friend...
No I don't see how I can make it with you gone
