

# Jean Shepard, Tell Me What I Want To Hear

Darling please don't make me wonder give my heart no cause to fear  
Say you know our love's eternal tell me what I want to hear  
Say you feel the same old magic that I feel when you are near  
Whisper love words and sing me love songs tell me what I want to hear  
[ fiddle - piano - guitar ]  
Others lips and arms may hold me but no other could make me care  
Let me always feel your love dear tell me what I want to hear  
Say you feel the same...
