

Jeff Bates, Country Enough

If you hear it on the radio
and don't turn it up
It 'aint country enough

Six presets on the stereo
in my new truck
Five other buttons
that I don't ever wanna touch
Some other station's playin'
some other junk
That folks don't listen
to where I come from
It 'aint country enough

Chorus:
'Cause if you 'aint crying
or fallin' in love
The you 'aint heard the good stuff
If you hear it on the radio
and don't turn it up
It 'aint country enough
It 'aint country enough

Great big speakers
in his little foreign automobile
Tires looking flat
like he's just about
rollin' on wheels
What he's playin's
making his car thump
That kind of noise'll
make an eardrum bust
It aint country enough

repeat chorus

He 'aint got nothin'
but the bass and the beat
If you wanna keep it country
come and ride with me

repeat chorus

It 'aint country,
It 'aint country,
It 'aint country enough
country enough
country enough

Now that's what
I'm talking about
