

Jeff Finlin, Come On Annie

Joey say come here Im your silver desperado
Its about time girl we make our do
I hear its nice out in the hills of Colorado
If Jesse James can do it we can too
All I ever want to do girl is blow this town
So give me a little kiss babe and sink that beer
I gotta little money hey lets go downtown
Put it on forty-four and blow outa here

Come on Annie get your Gun
Lay your head upon my shoulder
Put our love out on the run
We cant start till this pain is over

Shalalalala

That place you slave down on Eldorado
I know you got the key to the loot
If ya let me in there I promise Ill be gentle
I give my word honey I wont shoot
Cause all I ever want to do is blow this town
And ride our love in a greener field
So put my finger right upon your trigger
And show me baby that your love is real

Chorus
