

Jefferson Starship, That's For Sure

Think of the times you have sat by yourself
And wondered
Just what it was that compelled you to be
What you are
You came into this life unsheltered and all alone
That's how you came and for sure that's how you go out.

High on a hill you can feel the breeze
And rest easy
All things that live have a right to exist
And be free.

You came into this life unsheltered and all alone
That's how you came and for sure that's how you'll go out
That's for sure, that's how you go out
That's for sure, that's how you go out
That's for sure, that's how you go out
That's for sure, that's how you go out.

Is there a chance you have taken these steps
So not losing
Losing all that you have, don't you know what you have is not
real
You came into this life unsheltered and all alone
That's how you came and for sure that's how you go out
Yeah that's for sure
That's how you go out
That's how you go out
That's how you go out
That's how you go out.
