

# Jem And The Holograms, First Love

All at once you feel like doing cartwheels  
Theres someone your always dreaming of  
Your heart is set aflame and you'll never be the same  
Once you find first love first love first love

First love makes you feel 10 miles high  
First love is like a highway to the sky  
Theres nothing you can plan for  
Nothing you could have rehearsed  
I happens all in an instant your first first love  
What is it about him you just can't live without him  
First love makes you feel 10 miles high  
First love is like a highway to the sky  
Theres nothing you can plan for  
Nothing you could have rehearsed  
I happens all in an instant your first first love  
Your first first love (first love)
