

Jem And The Holograms, She Makes And Impres

Her outfit is chosen with the greatest of care
She does the same when she does her hair
Oh she wears what she wears with pride
It reflects what she feels inside

She makes an impression wherever she goes
She makes an impression it's more than her clothes
She makes an impression
You bet you won't forget woah oh oh

(She makes an impression)
It's not the store or the designer's name
(Ooh)
It's not the price she won't play that game
But the moment a girl steps out (steps out)
You can tell what she's all about

She makes an impression wherever she goes
She makes an impression it's more than her clothes
She makes an impression
You bet you won't forget

(She makes an impression)
She makes an impression
(She makes an impression)
She makes an impression
She makes an impression
