

# Jennifer, If You Were Here

The train's gone and I am standing alone  
I think of you and wonder if you think of me too  
I'm back to the town that I was born in  
To think of my life and to start it all over with you

(chorus 1)

'Cause you know, we've been in a maze of love  
And we are losing control to get away  
Here I am walking on the hill in this town  
Like in my childhood that seems like yesterday

(chorus 2)

If you were here with me  
You could feel the way I do now  
If you were here with me  
you could see what I am looking for now

I need to come to the hill on my own  
When I feel lonely, dreaming of the future to come  
The feel of the wind makes me understand  
That I will have to face the problem to overcome

(repeat chorus 1)

(repeat chorus 2)
