

Jennifer Lopez, First Love

See I know a little bit something good
Always comes out of a little bit something bad
And I wasn't looking for someone new
Till you came down
Giving me the best the time I've had
And now you're on my skin
Body to body
Working me out
Yeah you, you play to win
Rocking me steady
Round after round
Oh, oh

I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love
Oh, oh
I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love
Oh, oh I

Mistakes I don't worry 'bout them no more
'Cause you got me, I'm on Cloud 9
So good, no I cannot just keep it real
T-shirt and jeans
See you making me feel so fly
And now you're on my skin
Body to body
Working me out
Yeah you, you play to win
Rocking me steady
Round after round
Oh, oh

I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love
Oh, oh
I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love
Oh, oh I

You make me wanna ride again
'Cause I, I wanna hear you say my name
'Cause I
You make me wanna ride again
'Cause I, I I I
You make me wanna ride again
'Cause I, I wanna hear you say my name
'Cause I
You make me wanna ride again
'Cause I, I I I

Oh, oh

I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love
Oh, oh
I wish you were my first love
'Cause if you were my first
Baby there wouldn't have been no second, third or fourth love

Oh, oh I

I wish you were my first love

'Cause if you were my first

Baby there wouldn't have been no second, third or fourth love

Oh, oh

I wish you were my first love

'Cause if you were my first

Baby there wouldn't have been no second, third or fourth love

Oh, oh I
