

# Jennifer Lopez, Play (Sack International Remix)

I could wait all night and day  
To go to a party, sit down and wait  
Give my request to the D.J.  
'Cause my song he's gotta play  
And when I hear that beat  
I get my body up out my seat  
I grab a guy and move my feet  
He's playing my song

Chorus:

Play, come on play that song  
Play it all night long  
D.J. just play that song  
Just turn it up and turn me on  
Play, come on D.J. play that song  
You know that it turns me on  
D.J. just play that song  
Just turn it up and turn me on

D.J. just play that song  
'Cause I wanna be dancing all night long  
Won't you play my play my play my play my  
Play my favorite song

I don't care if everybody's gone  
Turn it up, 'cause it turns me on  
Keep dancing all night long  
It feels so right that it can't be wrong  
I get chills up and down my spine  
Whenever I hear that song of mine  
When it stops better press rewind  
Play that shit again  
Let me hear it one more time

Chorus:

Play, come on play that song  
Play it all night long  
D.J. just play that song  
Just turn it up and turn me on  
Play, come on D.J. play that song  
You know that it turns me on  
D.J. just play that song  
Just turn it up and turn me on

Now Mr. D.J.

I've asked you 3 times  
Play my muthafuckin' song.

I just wanna dance  
Is that a crime?  
Alright then, ooh, uh  
Come here baby, ooh, uh  
I just wanna dance

Chorus(x3):

Play, come on play that song  
Play it all night long  
D.J. just play that song  
Just turn it up and turn me on  
Play, come on D.J. play that song  
You know that it turns me on  
D.J. just play that song  
Just turn it up and turn me on

'Cause I wanna be dancin'  
'Cause I wanna be dancin'  
'Cause I wanna be dancin'  
'Cause I wanna be dancin' all night long

D.J. just play that song  
D.J. just play that song  
Just turn it up and turn it on  
D.J. just play that song  
Just turn it up and turn it on on  
D.J. just play that song  
Just turn it on  
All night long  
Just play that song  
All night long

yeah, that's the hotness right there.
