

# Jennifer Lopez, Worry No More (ft. Rick Ross)

Do anything that you can  
To make me feel so protected  
I don't wanna worry no more  
I'd give anything for you to come and help me perfect it  
I won't worry no more  
I won't worry no more  
I won't worry  
Wanna feel like I'm brand new  
Even though I gotta have you  
All 'em other bitches stab you  
They was close enough to grab you  
Ain't no other way you had to  
I'mma always hold it down for ya  
Look at how I move around for ya

Do anything that you can  
To make me feel so protected  
I don't wanna worry no more  
Just want you to know my name  
By the time we exit  
Wanna feel like I'm brand new  
Even though I gotta have you  
All 'em other bitches stab you  
They was close enough to grab you  
I won't worry no more

[Rick Ross:]  
I won't worry no more  
Just want you to know my name  
By the time we exit  
I won't worry no more  
I won't worry no more  
I won't worry  
I'mma always hold it down for ya  
Look at how I move around for ya  
I'mma always hold it down for ya  
Move around for ya  
I won't worry no more  
I won't worry  
I don't wanna worry no more  
Hold it down for ya  
I'mma move around for ya  
I don't wanna worry no more  
Hold it down for ya  
Every time I come around for ya  
I'mma always hold it down for ya  
Look at how I move around for ya

Do anything that you can  
To make me feel so protected  
I won't worry  
I don't wanna worry no more  
How I move around for ya  
How I move around for ya  
How I move around for ya  
How I move around for ya  
How I move around for ya
