

Jennifer Love Hewitt, Cool With You

Late last night, I was going through some old things
When i saw a picture of you, my best friend
It reminded me of days when you were mine
You had a way that always left me here with a smile
I want those sweet days back again, cause baby

CHORUS

It's a sunny day but you're not around
That all rain might as well be pouring down
it's such a shame cause my heart's on the ground
just wanna be cool with you again

Sometimes i sit by the fire and reminisce
about the time that we spent in front of it
and that old flame will never be the same
until you came back here and rekindle it
i just wanna share my heart with you again, cause baby

CHORUS

BRIDGE:

i fall asleep at night and often see you here in my dreams,
holding me, yeah baby
but then i wake up and i realize that you're not here with me
it hurts so much, i gotta have you back baby

CHORUS
