

# Jennifer Love Hewitt, I Know You Will

Baby baby drive me crazy walking on the edge  
The way you touch yourself has got me hanging on a ledge  
Is it me, is it you something that I didn't see  
I walk away but there you are standing next to me

## CHORUS

Don't tell me that you won't go there baby  
Cause I know that you will  
Don't tell me that you won't do me baby  
Cause I know that you I know that you  
I know you will

Mister Mister, I'm a sister that you cannot play  
If I gave it up to you you know you'll take it all the way  
You can try, you can steam  
You know that chemistry don't lie  
Cause the way you move the body has given me the vibe

## CHORUS

Oh I know you will, i know you will, I know you will, i know, I know, I know you will  
tell me baby  
Don't tell tell me that you wouldn't do me baby, don't tell me that you wouldn't do me real now  
don't tell me that you wouldn't do me babe don't you tell me that you wouldn't do me  
Tell me baby

REPEAT CHORUS TO FADE
