

# Jennifer Paige, Here With Me

In my head  
I have dreams  
I have visions of many things  
Questions longings in my mind

Pictures fill my head  
I feel so trapped instead  
But trapped doesn't seem so bad  
Cause you are here

It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me

In my heart I had hope  
Built on dreams I'll never know  
Answers to love left behind  
Visions filled my head

I felt so trapped instead  
But trapped didn't seem so bad  
Cause you were near

It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me

I can't do anything without you  
You give me strength to do anything  
And I can't be anything I try to  
You saved me from the everything I couldn't be

It doesn't mean anything  
Without you here with me  
And I can try to justify  
But I still need you here with me

Need you here with me  
I need you here with me
