

Jenny Owen Youngs, Voice On Tape

All the evidence points in one direction
since i don't need you physically around
I've got your voice on tape
I've got your words in me
I don't want anything else
I don't want anyone else

A thing that I have but I've dropped
All that I've had but I dropped

I want you back and forth
I want you up and down
I want you inside out

I've got your voice on tape
I've got your words in me
I don't want anything else
I don't want anyone else

And you say that I don't have this down
but I've been practicing out loud

I want you back and forth
I want you up and down
I want you back and forth.....
(I've got your voice on tape
I've got your words in me)
