

# Jens Johansson, Close to You

they say that love will never last, i really  
thought so in the past, it didn't last

I always ways the last to know, but now  
I'm going with the flow, i have to know

close to you, close to you, I don't want  
to think it thru

close to you, close to you, all my  
dreams are coming true

close to you, close to you, all my  
dreams are coming true, they're  
coming true

I never used to have a doubt, nothing  
was waiting to come out, but now I  
doubt

they say that love is never blind, but  
now i think I lost my mind, I'm going  
blind
