

# Jeremy Enigk, Set It On Fire

Another one we all walk away  
Never a dream your eyes, wont you play  
Rhythm alone won&#039;t hold me in mind

Ooh want to set it all on fire  
Bury my feet in the cold of a meadow  
Into the unknown northern wind  
Dreams to ignite through northern fields we&#039;ll fly, fly

Don&#039;t tell me its all the same in the middle  
So memory lie outside your meadow  
Tow me around outside the middle for all i can hear  
Turn me around all I can be here
