

Jeremy Jordan, Right Kind Of Love

Right Kind of Love
Jeremy Jordan

It's the right kind of love
It's the right kind of night
You're the right kind of girl

Daydreaming about you baby
And it must be love
Girl you make my heart go crazy
High as the heavens above
I hope you're thinking about me girl
Because all of my thoughts are with you
My love
There's no reason to doubt me
Believe me it's true

Girl I know I can give you
The right kind of love
It's the right kind of night
You're the right kind of girl
And we're right on time
Oh now baby
You know we can't go wrong

Why you trying to hold back baby
Tell me what you feel
If you're having mixed emotions
I'll show you that I'm for real
What can I do to make you see
There's nobody but you
And girl
It's not magic or fantasy
It's simple and true

I know I can give you
The right kind of love
It's the right kind of night
You're the right kind of girl
I'm the right kind of guy
It's the right kind of love
On the right kind of night
There's the right kind of stars
In the right kind of sky
Oh now baby
You know we can't go wrong
Girl-
I got a heart that's true
I got the right kind of love
I'm gonna give it to you
And you got me romantic
Can't you see
I'm the right kind of guy for you
And you're the right kind of girl for me
I got a heart that's true
And a soul that's deep
I'll be the right kind of lover
Baby can't you see
I'm gonna treat you
The right kind of way
You know it
So come on girl stay
I got a love

It's the right kind of love
It's the right kind of night
You're the right kind of girl
And we're right on time
It's the right kind of love
On the right kind of night
There's the right kind of stars
In the right kind of sky

I could do with a girl like you
See what I can do with a girl like you
It's you and me together
It's the right kind of love...
