

Jeremy Renner, Main Attraction

every time i take a battlefield
feel alive whit nowhere to go
I am the king of the road
you the queen of my throne

every night satisfied
whatever we wrong
you the star of the show
you shimmer like gold

now baby, let's ride
we got nothing but time
you get all the reaction
you're the main attraction
it's not surprise
god, I like your style
you're the perfect distraction
golden main attraction

run the city
like the back of time
to freedom is main
ridden the light
you know what I liked

battle to the battle
I am your soldier
you can take it for ..
and let it awhile
just I you liked

now baby, let's ride
we got nothing but time
you get all the reaction
you're the main attraction
it's not surprise
god, I like your style
you're the perfect distraction
you're the main attraction

now baby, let's ride
now baby, let's ride
oh god, I like your style

now baby, let's ride
we got nothing but time
you get all the reaction
you're the main attraction
it's not surprise
god, I like your style
you're the perfect distraction
you're the main attraction
