

Jeremy's, Take You All The Way

We've got it going on much more than ever
It won't be long before it's gonna show
How much we both can take for the love and for the aches
You drew a smile, drew a smile, remember?

Don't you know that I will never stop
Making you believe in what we've got
Giving you a time more then we've thought
It's so great you know, I can, I can.

I'm telling you the road we tried to walk down
It wasn't quite a shortcut but, you know
Just hear me when I say all the good has come our way
You drew a smile, drew a smile, remember?

Don't you know that I will never stop
Making you believe in what we've got
Giving you a time more then we've thought
It's so great you know, I can, I can.

I'll take you all the way
I'll take you all the way

Don't you know that I will never stop
Making you believe in what we've got
Giving you a time more then we've thought
It's so great you know, I can, I can.
