

Jericho Jones, Time Is Now

Wake up your brains
Shout out the news
And all of the people
Forget 'bout the blues
Whatever you colour
Whatever you greed
Any religion
Any belief.

It's time the world a-changin'
It's time, the time is now
It's time the world a-changin'
It's time, the time is now.

Forget 'bout the money
Check out your flows
And shout out the message
Wherever you go
You're rockin' the streets
You're rockin' the parks
Get right of your bad dreams
Get right of your gods.

It's time the world a-changin'
It's time, the time is now
It's time the world a-changin'
It's time, the time is now.

It's time the world a-changin'
It's time, the time is now
It's time the world a-changin'
It's time, the time is now.

Wake up your brains, yeah.

It's time the world a-changin'
It's time, the time is now
It's time the world a-changin'
It's time, the time is now.

Wake up your brains
Shout out the news
It's time the world a-changin'...
