

Jerks Circle, Disintergrating

In line and waiting for somewhere to go
And the dosage today was much to low.
I just got there and took my place,
And wondered when I lost my face.

I think your safe
I think Im safe today...

Disintergrating,
My bones are showing and my mind is broken
It's choking, its somewhere else.

Forever needing and no relieving
When my body's taking, its taking me too far

Remembered that the world was blind,
To simple things not simple Minds.
The veins are closed the well is dry,
I think your safe, I think your safe from me

Disintergrating,
My bones are showing and my mind is broken
It's choking, its somewhere else.

Forever needing and no relieving
When my body's taking, its taking me too far.

Too far, too far from me.
