

# Jerry Cantrell, Had To Know

Tonight I spilled myself on the floor  
Admired the way you clawed through the door  
Remember the precious look on your face  
You measured a dose aquired the taste

Keep on trying, questions firing  
More than you bargained for  
'Cause you really had to know

Tonight I left you with so much unsaid  
You brokered a deal alone in my bed  
It's no surprise I been here before  
You're not the first to be wanting more

Keep on trying, questions firing  
More than you bargained for  
'Cause you really had to know

Had to know  
Had to know

We stand above a place to fall  
We stand above a place to fall  
We stand above a place to fall  
Had to know

Keep on trying, questions firing  
More than you bargained for  
Keep on trying, questions firing  
Clawed your way through the door  
(Clawed your way through the door)

Keep on trying, questions firing  
Spilled myself on the floor (spilled myself on the floor)  
'Cause you really had to know

Had to know  
Had to know

We stand above a place to fall  
We stand above a place to fall
