

Jerry Cantrell, Prism Of Doubt

Wind up my key, I'm running down
There's one damn need within this town
There's somebody crying, somebody dying
Feel like I'm wasting my time away

Come over me, upturn the frown
Oh, turn it up now

I'm finding out
Better with or without
Been looking out
Through a prism of doubt

I can't believe how far we've come
Lighting a street like a midnight sun
Falling or flying, gonna keep trying
Just wanna wake up another day

What sets you free, already found
Oh, turn it up now

I'm finding out
Better with or without
Been looking out
Through a prism of doubt

I'm finding out
Better with or without
Been looking out
Through a prism of doubt, yeah
I'm finding out
Better with or without
Been looking out
Through a prism of doubt
