

Jerry Jeff Walker, What Are We Doing?

Bobby Charles

Yeah I'm sittin' here drinkin' again
I'm just spendin' some time with my friend
Then I know that I should be by your side
What am I doin' with our lives

I know that you are someplace tonight
And I hope you're happy and you're all right
But you know it's true - just a couple of fools
What are we doin' with our lives

Yeah you know that I want you
You want me too
What in the world, girl, are we tryin' to prove

You're sittin' all by yourself
Pretending you found someone else
You know it's true - just fools foolin' fools
What are we doin' with our lives
