Jerry Jeff Walker, What Are We Doing?

Bobby Charles

Yeah I'm sittin' here drinkin' again I'm just spendin' some time with my friend Then I know that I should be by your side What am I doin' with our lives

I know that you are someplace tonight And I hope you're happy and you're all right But you know it's true - just a couple of fools What are we doin' with our lives

Yeah you know that I want you You want me too What in the world, girl, are we tryin' to prove

You're sittin' all by yourself Pretending you found someone else You know it's true - just fools foolin' fools What are we doin' with our lives
